

Gorter Roof Hatches - RHTG

NEW!

**Glazed roof hatch
Roof access with natural daylight**

Innovation in Roof Access ...

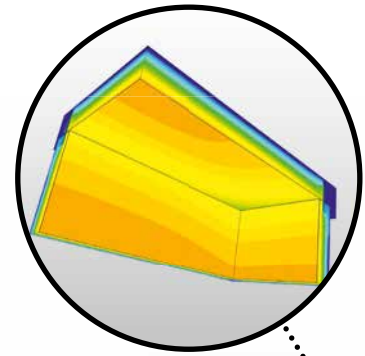

Safe Access, Proven Design

Gorter Roof Hatches

- » Natural daylight in the room below
- » Construction with thermal break technology
- » Reliable, Safe and Durable
- » Available complete with fixed stairs

Construction: $R_c = 3,57 \text{ m}^2 \cdot \text{K}/\text{W}$ ($U = 0,28$)
HR++ glass: $R_c = 0,91 \text{ m}^2 \cdot \text{K}/\text{W}$ ($U = 1,1$)

Thermally insulated cover

Ventilation switch included

Thermally insulated curb

Safe handhold for ascending and descending

Fall and break-in proof glass

Powder coated in two colours

Equipped with two powerful electric motors as standard

Double sealing all around

Self-cleaning glass due to pitch of hatch

Stainless steel hinges

Fast installation

Ten Good Reasons to Specify or Install a Gorter Roof Hatch

The roof space of buildings are increasingly being used for mechanical appliances such as airconditioners, lift motor rooms and machine rooms, as well as roof terraces, roof gardens and emergency escape routes. This is why it is vital for any roof access solution to be high quality, durable, convenient to use, and above all; safe, to meet increasingly stringent safety standards.

» Gorter supplies safe roof access solutions which are aesthetically pleasing, easily integrated into any design, convenient, durable and will ultimately save money and contribute to the safe and long term operation of any commercial, industrial or residential building project.

- 1 Money Saving Roof Access**

Gorter roof hatches offer safe and convenient access to any roof space. Gorter roof hatches offer a simple and money saving alternative to a vertical door construction for roof access. The Gorter range of roof hatches are aesthetically pleasing and unobtrusive. This allows easy integration into any design.

- 2 SAFETY Features for the end-user**

Gorter RHTG roof hatches are opened and closed with the push of a button. The handrail provides a good handhold when ascending and descending. The glass is laminated, offering fall protection when the hatch is closed.

- 3 A complete access solution**

Depending on the dimensions, roof hatches can be combined with Gorter fixed stairs. Tests have shown that this Gorter combination meets safety standards.

- 4 We have thought of the Architect**

The Gorter website has standard drawings and specifications available on our wide range of access products. Gorter's experience staff can also provide advice, test reports, as well as safety approvals. This allows the architect to specify a Gorter product with confidence. Please contact us for custom drawings or specifications.

- 5 Less Mass, More Class**

Because at Gorter many of our staff are from the building industry, we understand such a job is physically demanding. That is why many of our products are manufactured from aluminium, making it just as strong and durable but upto 3 times lighter than a similar product made from steel or stainless steel. This ensures a Gorter product is easy to install and handle.

- 6 Easy Installation at Minimal Cost**

Gorter products are supplied completely assembled. We have even predrilled mounting holes in the flange. Installation consists of simply placing the hatch over the roof opening, bolting it in place, and ensuring watertightness by flashing underneath the curb. All this can usually be done in the space of around 1 hour.

- 7 Weathertight Construction**

The roof hatches are designed to be weather and wind-proof and are provided with high-quality thermal insulation ($R_c = 3.57 \text{ m}^2 \cdot \text{K/W}$). The glass has an insulation value of $R_c = 0.91 \text{ m}^2 \cdot \text{K/W}$.

- 8 Strong and Durable Construction**

Gorter roof hatches have a robust construction. They are anodised and powder coated in two colours. The glass is laminated with burglary-resistant foil. All materials are 100% recyclable.

- 9 Bringing in natural light**

Wherever natural light is needed in the room below, a glazed roof hatch can be the solution. Examples include use as rooftop deck access or in offices and industrial and commercial buildings.

- 10 10 Year Warranty and Certified Safety and Quality**

Gorter Roof Hatches come with an industry first warranty of 10 years. The safety, performance and construction of our Hatches with or without a scissor stair, safety ladder or fixed step/rung ladder is certified by Australian, European and International standards and notified bodies for your peace of mind.
