

MobileHMI™

Instant KPIs and Alerts Anytime Anywhere

Visualize Your Enterprise™

Connect Data to Decision Makers

With MobileHMI, real time access to critical data in manufacturing, industrial and building operations can maximize the value of any corporate data, improve ROI and overall business performance. Now with the use of mobile devices users have access to information 24/7 with insight into their enterprise's performance. Put information at your fingertips and let KPIs be a part of your business strategy and gain immediate benefit.

- Be notified "anywhere and at anytime"
- Remote Monitoring of critical infrastructure
- Dazzling graphics, alarms, trends, charts and grids
- Instant deployment from Microsoft Marketplace
- Real-time scalable and robust mobile solution
- Standards based S95 asset navigation and organization
- Overlay real-time data with Microsoft Bing Maps
- Simple, no programming required

Rich Visualization, Charts, Alerts and Reporting

Create real-time visualization for the Windows Phone with advanced alert push notification and security. Dazzling graphics, grids, trends and charts are provided to help view any operation and address inefficiencies in equipment and building performance before it impacts the bottom line. Instant alarm summaries provide guidance to facility management, operators and maintenance personnel to take corrective action to prevent equipment failure and excessive use of energy.

Executives

- Visualize business performance at all times
- Improve enterprise-wide communications
- Instant access to KPIs and business metrics

Operators

- Stay informed in real time while traveling
- Notification to failures and excessive energy use
- Intuitively view assets with S95 navigation

Maintenance

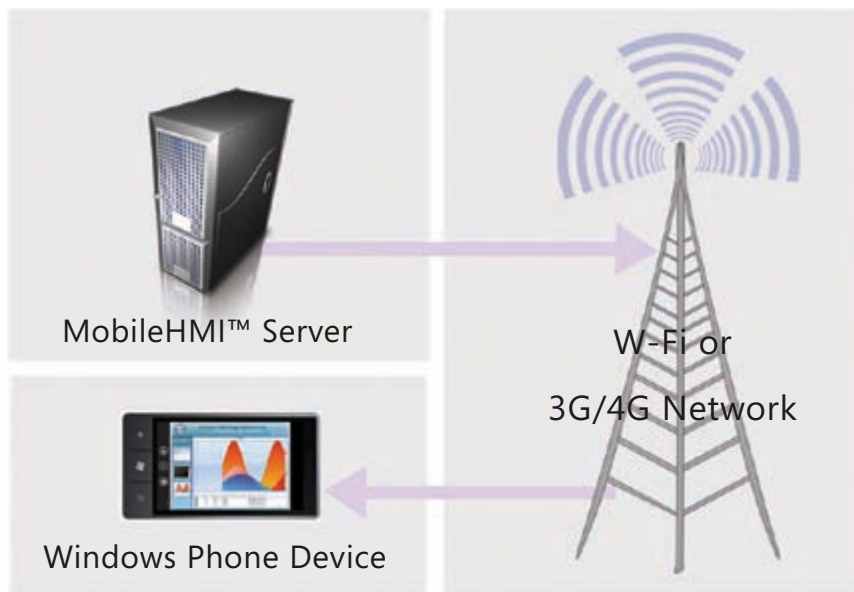

- Extend your reach with remote diagnostics
- Remote monitoring of critical infrastructure
- Information is just a touch away

Universal Data Access on Any Mobile Device

MobileHMI's innovative universal connectivity is built on industry open standards such as OPC Classic, OPC Unified Architecture, BACnet, SNMP, Modbus and Web Services. Simply plug MobileHMI into any existing BAS, SCADA or IT network, to immediately enable both cellular and Wi-Fi instant real-time access. Automatic device discovery makes it easy to point to your equipment or databases, and start realizing value.

Architecture

Applications

- Management Scorecards
- Water and Wastewater
- Building/Facilities Automation
- Wind, Solar, Renewable Energy
- Any Process Manufacturing
- Pharmaceuticals, Biotech
- Oil and Gas
- Electric Utilities
- Data Centers

Benefits

- On-demand access to your most important metrics, wherever you are!
- Secure unified view for all users, regardless of their role in the organization
- Quickly mark changes for rapid prototype and deployment
- Lightweight analytics and pivoting of data in the palm of your hands

Turn your data into profits by monitoring performance to goals via mobile technology

MobileHMI™

Real-time mobile visibility from the shop floor to the top floor and on any process, improves collaboration and business performance
