

November 19, 2012

Dear Shimon Henig,

Please note Folkmanis Puppets has been expertly designing puppets for over 35 years. Each puppet is carefully crafted to enable the professional puppeteer to make our high quality puppets come alive.

All of our puppets are in full compliance of the CPSIA (Consumer Product Safety Improvement Act). More can be learned about the requirements of these regulations at this website:
<http://www.cpsc.gov/about/cpsia/cpsia.html>

Each puppet has passed the rigorous safety requirements by a third party safety testing lab and a Certificate of Compliance for each individual puppet is posted on our website as required by the CPSIA.

Please feel free to contact me directly with any other information you may require.

Best Regards,

A handwritten signature in black ink, appearing to read "JC", with a long, sweeping horizontal line extending to the right.
