- Activating AquaClean deactivates the descaling alarm
- Effortlessly activate the filter with the click&go system

**Value Pack**

- Better value for your money

## Highlights

### Clear water optimally purified

Thanks to the patented flow, the water inside the water filter takes a longer path before entering your super-automatic coffee machine. This ensures a deeper purification for clear water and fine tasting coffee.

### Micro-porous filter

Ridding your brew of any small particles makes a huge difference to your in cup quality. The micro-porous filter prevents impurities from contaminating the water, so you can guarantee every cup you make will be fresh, clean and delicious.

### Ion-exchange technology

The ion-exchange technology removes calcium from the water before entering your coffee machine, thus

preventing its formation. If the filter is replaced timely at machine request, you can enjoy up to 625 cups with each filter\*

### Not clog thanks to the filter

Now nothing can get in the way of your perfect coffee moment. The micro-porous filter stops impurities from entering your super-automatic coffee machine, keeping the water circuit clean and protecting it from clogging.

### Descaling alarm deactivated

The AquaClean ensures only pure and filtered water flows into your Full Automatic coffee machine, so the descaling alarm is automatically deactivated. Endless, hassle-free coffee of the finest quality is yours to enjoy - and it's not until after 8 filter replacements that the machine will reactivate the descaling process alarm. Remember, machines equipped with the AquaClean have a sticker on the water tank.

### Click&go system

Such an enduring feature couldn't be quicker to install. Just plug your AquaClean filter in the water tank of your Saeco super-automatic espresso machine, activate it via the user interface, and you're ready to enjoy the first of 5,000 pure coffee cups. And it's not until after 8 filter replacements that the machine will reactivate the descaling process. Automatic espresso machines, which are compatible with the AquaClean water filter, will have a sticker on the water tank.
